

ADMIRAL NURSES

in Worcestershire

*Helping you
care well*

Wednesday 20th May 2015

Charles Hastings Education Centre, Worcester
The event starts at 6.30pm with refreshments
available from 6pm.

More than 500,000 people in the UK live at home with dementia. This means that for the most part the responsibility for their care and well-being is with loved ones. This can be extremely demanding, both physically and emotionally and so providing effective support to the carer is vital.

In Worcestershire our Admiral Nursing team provide services to the families of people living at home with dementia. They are professional nurses who work with families and professionals from other agencies.

Our members' event is an opportunity to find out more about the service they provide, and the many benefits this has for carers across the county.
