What to do if you don’t understand me..

Don’t pretend to understand when you don’t. I will know!

If you often find it hard to understand me then use a news book. Already knowing my news will help you.

Be sympathetic – take the blame yourself. Tell me your ears aren’t working as well as they should!

Ask me to SHOW you if I can!

If you still can’t understand, say sorry and suggest we ask mummy when she collects me.

Go back to the last thing you understood and try again – “so you were playing tig and then….?”
