Waiting for GO!

Children often find it hard to **wait for go** during play.

By practiseing this skill children will be improving their listening and turn taking.

**Try this…**
- Rolling cars down a car ramp
- Rolling a ball to each other
- Marble run
- Rolling cars back and forth
- Going down a slide

Choose a motivating toy. Sit opposite your child so they can see your face. Encourage them to look at you by pausing after ‘ready steady…..’ This allows time for them to look towards you before releasing the object on “go!”

As they improve, see if they can wait a little longer before you say go. Praise them for waiting. 😊
